

Three Angels Broadcasting Network, Inc.  
PO box 220  
West Frankfort, IL 62896

Three Angels Broadcasting Network (3ABN) is owner and operator of nearly 100 Low-Power TV stations around the United States. Many of our viewers are marginalized and elderly people who in many cases eat three weeks out of the month and starve the last week. They have little social contact other than their TV set. 3ABN and other religious networks have become their family. They call and write us to tell us so.

Should the Commission decide to reallocate a large portion of the UHF TV spectrum to broadband use, these marginalized or elderly people would not be able to afford to pay for broadband service which they now receive free or the equipment required to continue receiving the networks that have become their families. Additionally it would add a layer of complexity which they are often unable or unwilling to tackle.
